MODERN PLUMBING

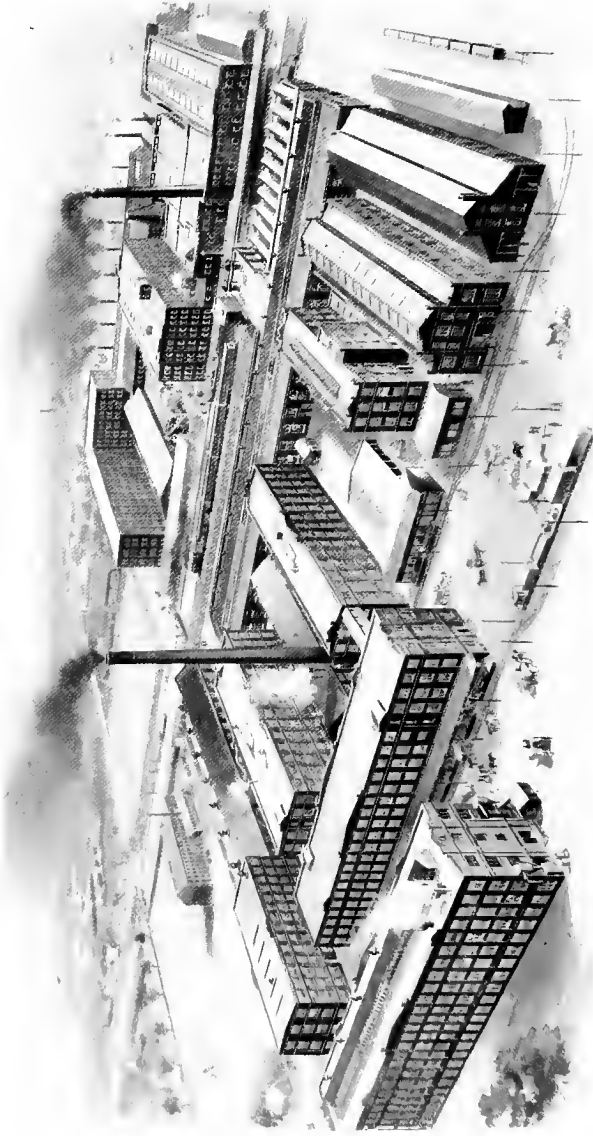

N^o 6

THE J. L. MOTT IRON WORKS

FIFTH AVE. AND SEVENTEENTH ST.

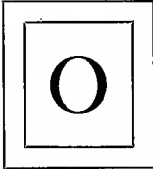

NEW YORK

Copyright, 1908, by The J. L. Mott Iron Works

PLANT AT TRENTON, N. J.

OUR MANUFACTURING PLANT

UR manufacturing plant at Trenton, N. J., comprises Potteries, Iron Foundries, Brass Foundries, Enameling Shops, Cabinet Shops, Ornamental Shops, Etc. In 1828 our works at Mott Haven were established. In 1894 our potteries were established in Trenton, where, in 1907, our entire manufacturing plant was concentrated.

Not only do we manufacture all the goods we sell, but we manufacture them in

ONE COMPREHENSIVE PLANT

which is undoubtedly one of the most complete and thoroughly equipped of its kind. No expense has been spared to get the very best results in every department, our aim being to produce our products of the highest quality in their various grades, and to do so at a reasonable cost.

The feature of concentration is also of very great importance—manufacturing all our goods in one plant assures the proper assembling and fitting of all component parts, and will also enable us to make correct and complete shipments.

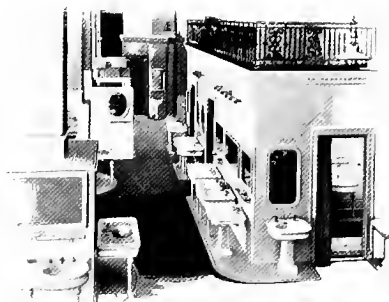

Main Office and Showrooms

FIFTH AVENUE AND SEVENTEENTH STREET
NEW YORK

Branch Stores and Selling Agencies

BOSTON	CHICAGO	PHILADELPHIA	SAN FRANCISCO	ST. LOUIS
PITTSBURGH	DETROIT	WASHINGTON	NEW ORLEANS	MONTREAL
		SAN ANTONIO		

OUR new showrooms, Fifth Avenue and Seventeenth Street, exemplify the possibilities and perfection of modern plumbing of the highest class, the exhibit being unequaled and eclipsing all our previous efforts.

Eleven bathrooms, artistic and beautiful, novel and complete, are a revelation. They demonstrate what can be accomplished by the proper treatment of tiling and our porcelain and other high grade sanitary fixtures.

It is just as essential for those contemplating building or remodeling their bathrooms to interest themselves in the plumbing fixtures, as it is to select designs of carpets, furniture, portieres, etc. We therefore strongly urge, that, whenever possible, a visit be paid to our showrooms where our goods may be examined and their superlative excellence demonstrated.

PREFACE

I

N this book are illustrated over twenty bathrooms. They cover a very wide field, including not only the very finest goods, but others of moderate price.

The cost of installation is substantially the same for first-class plumbing fixtures, as for those whose chief merit is their cheapness; thus the ultimate difference in price is measured only by the slightly greater cost of the fixtures that can be counted upon to give complete and lasting satisfaction.

Tiling makes possible the beautiful and artistic modern bathroom. Our designs are delicate and refined, the outcome of many years of experience and careful study in this department, while the quality of the tiles is of the very best, all of which is strikingly shown by the complete bathrooms which are part of our varied and complete exhibit. Tiling to be satisfactory, must not only be carefully designed and selected, but should be set by skilled, reliable and careful workmen; our experience of many years in this particular branch of the tile business has developed a high class of these skilled workers.

THE BATHROOM

Not many years ago it was usual, in planning a residence, to leave the bathroom as the last to receive consideration, with the result that it was often placed in an undesirable location and almost invariably smaller than it should be. This is now greatly changed, and the bathroom is justly considered one of the most important features of a residence. There is a realization of the fact that the bathroom is used, next to the living room and kitchen, quite as much as any other room in the house, and as a factor for health and comfort it is of the utmost importance. It is now conceded that the bathroom should be ample in size, so as to allow for the proper and convenient placing of the plumbing fixtures. In this connection we refer to the various ground plans that accompany the illustrations of interiors shown in this book, which are designed to suit the various sizes of bathrooms.

Modern plumbing, as applied to a bathroom, does not consist of merely three or four fixtures that bear no relation one to the other — on the contrary, each should be so selected that the bathroom as a whole produces an artistic effect and satisfies the critical eye.

This we have always kept in view, the outcome being that the bathroom of to-day is a primary feature in the "house beautiful."

RELATING TO
IMPERIAL PORCELAIN, VITREOUS PORCELAIN AND
ENAMELED IRON PLUMBING FIXTURES

F

OR the best plumbing work, imperial and vitreous solid porcelain fixtures are in a class by themselves, nothing else being at all comparable either for beauty, cleanliness or durability.

Clay products, after going through a drying process covering four or five weeks, are placed in the kiln where they remain for about ten days subjected to a heat running up as high as 2500 to 3000 degrees, thereby insuring a glaze and a hardness of surface unattainable in the enamel on cast-iron, for the obvious reason that the latter can only be fired at a very much lower heat, consequently the softer surface of the enamel cannot be so easily kept clean or free from stains as the porcelain, *i. e.*, by simply wiping with a cloth or sponge.

In the manufacture of enameled iron ware we have reached a high degree of perfection. We also recognize that this ware will continue to be a considerable factor in plumbing fixtures, especially the enameled iron bath tub, which, until the advent of the solid porcelain tub, was the bath *par excellence*, and doubtless will continue to be largely used in the cheaper class of work; only, we desire it to be well understood just what *porcelain ware* is and what *enameled iron ware* is, so that the purchaser may not make a mistake or be misled by a similarity of terms. The bath tub has always been the most successful

enameled iron fixture, *i. e.*, when compared with lavatories and sinks, for the simple reason that it is not subjected to the same wear and tear. Used only for bathing purposes, it is less likely to be stained or chipped, and should, with ordinary care, be very satisfactory.

Of enameled iron lavatories we can hardly say as much, nor do we think they should be considered in the same class with imperial or vitreous solid porcelain lavatories for good substantial work, and even while they may be cheaper their use may not always be an economy.

Enameled iron kitchen sinks can hardly be expected to be enduring when we consider the usage to which the average kitchen sink is subjected. There can be no question about the superiority in every respect of the solid imperial porcelain or colonial sinks with their thickness of over two inches and their heavy glaze which covers not only the inside but the outside.

For pantry sinks nothing is finer or more beautiful than imperial porcelain, although german silver or planished copper makes a durable and high-class fixture.

We do not hesitate to say that an enameled iron water closet is altogether out of place in a private bathroom; indeed, unless under very exceptional conditions, we cannot see any reason whatever for their use, especially when the earthenware closets, that will neither stain nor get foul, can be obtained at the same price or even less.

In view of various conflicting and specious claims made in recent years, we offer the above comparison for the consideration of all who may be interested in plumbing fixtures.

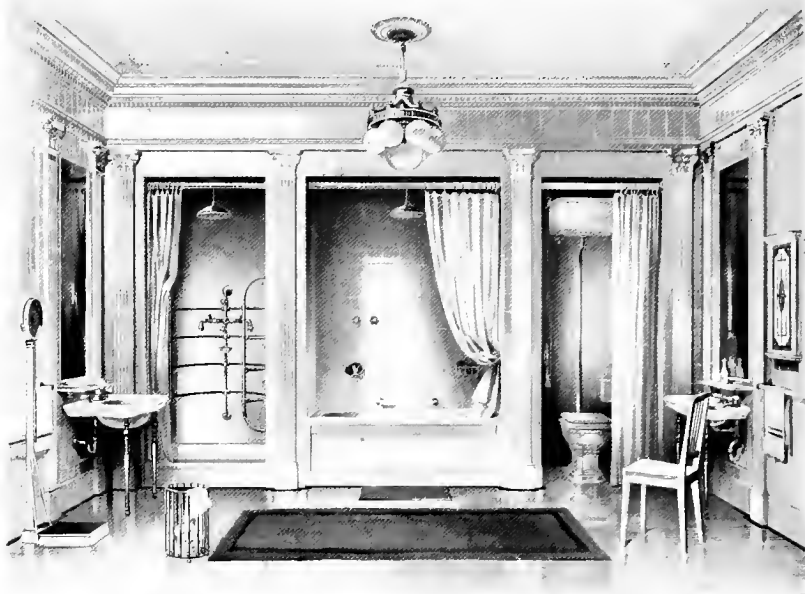

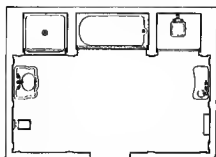

Plate 1000-A, Bathroom "Regent"

THIS bathroom represents, in the highest degree, the union of the practical with the ornate. The three main fixtures are recessed; the drawing of the curtains converting the bathroom substantially into a dressing room. The bath and receptor for needle bath are built into the floor and wall. The toilet table is provided with a manicure bowl.

Tiling — The arrangement and shape of the fixtures lend themselves especially to the design, which is architectural in character, and a distinct departure from the conventional bathroom tiling. The tiles are exclusively our own in design and modeling, the tint being a delicate white with dull ivory finish.

MINIMUM SIZE, 7' 6" X 15'

Plate 1001-A

Plate 1000-A, Bathroom "Regent"

	Class A	Class B	
Bath —The "Regent," imperial porcelain, finished outside white with embossed bead touched in gold, combination supply fittings, "Simplex" waste with china handle, combination shower valves (for ½" iron pipe), shower, offset curtain rod with water-proofed white duck curtains, chains and hooks, 5' x 2' 8"	\$299 75	\$239 00	
Same, 5' 6" x 2' 8"	331 75	253 50	
Needle and Shower —The "Regent" needle and shower bath with water-proofed white duck curtain, offset curtain rod and hooks, soap dish, imperial porcelain receptor, brass strainer and coupling. (Receptors are Classes A and B)	286 25	248 25	
Lavatory —The "Langdon," imperial porcelain, with legs (china ball feet) and wall supports, No. 2 "Primus" supply and waste with china handles, and adjustable trap to wall, 30" x 24"	89 50	74 25	Ex. Heavy Vitreous \$73 50
Same, 33" x 24"	98 00	80 00	81 50
Water Closet —The "Renaissance" with cellul enamel white seat and cover, No. 33 design "M" white enamel painted cistern, No. 1 brackets, flush pipe, No. 4 guide, rod and links with cut glass pull, the sanitary-perfect screw connection, offset curtain rod and water-proofed white duck curtain, and imperial porcelain floor slab, \$136 50			
Toilet Table —The "Newport," imperial porcelain, with manicure bowl, No. 2 "Primus" supply and waste, china handles, legs and wall supports, and adjustable trap	97 50	84 50	
Furnishings —Bathroom scale, white enamel, \$36.75. Basket for soiled towels, \$16.00. Cellu-enamel towel rod with standards, 30" long, 1" diameter, \$4.75; 1½" diameter, \$6.65. Plate glass toilet shelf with brackets, 30" long, \$7.75. Plate glass toilet shelf with guard rail and brackets, 33" long, \$11.75. Holder for bath brush, \$4.20. Sponge holder, \$5.50. Cellu-enamel hand rail, 1½" diameter, 24" long, \$5.90. Cellu-enamel bathroom or toilet table chair, \$25.00. Colonial recessed medicine cabinet, white enameled wood frame with leaded glass door and two adjustable plate glass shelves, as shown, \$110.00. (For other medicine cabinets, see page 65.) Cellu-enamel paper cabinet, \$12.00. Prices of mirrors with tile frames on application. Discount on furnishings, ten per cent.			
Tiling —Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.			
Brass Work —All brass work is nickel-plated.			

Plate 1002-A, Bathroom "Alexandria"

THIS very complete bathroom includes the "Alexandria" imperial porcelain bath, imperial porcelain seat bath and porcelain bidet, the fittings of which pass through the extra-wide rim. The large "Clinton" lavatory which is the central figure is 4' 2" long and has two basins. The striking effect of the mass of bright imperial porcelain with its background of appropriate tile can only be indicated by the illustration.

Tiling—In design and treatment this is modern English. The floor tile may be either glazed or unglazed vitreous.

MINIMUM SIZE 9' X 9' 6"
Plate 1003-A

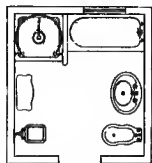

Plate 1002-A, Bathroom "Alexandria"

	Class A	Class B
Bath —The "Alexandria," imperial porcelain, finished outside white with embossed bead touched in gold, "Eton" supply and waste fittings, 5' 10" x 2' 8" .	\$176 00	\$158 00
Shower —Shower and shampoo with 8½" tubular shower, 25" curtain ring, white duck curtain, hook and chain, supply pipes to wall and check valves	\$44 00	
Same, with "Thermo" anti-scalding valve	59 25	
Seat Bath —The "Lincoln," imperial porcelain, glazed outside white, with "Eton" supply and waste fittings, and china handles	139 25	106 25
Lavatory —The "Clinton," imperial porcelain, with imperial porcelain legs, wall supports, No. 3 "Primus" supplies and wastes, with china handles and adjustable traps to wall, 4' 2" x 2' 1"	160 00	131 00
Mirror —Beveled plate glass, with ¾" white enameled wood frame, 48" x 30"	\$44 00	
Water Closet —The "Langham" with "Presto" flush valve, adjustable shut-off valve, cellu-enamel seat and cover, sanitary-perfect screw connection, and imperial porcelain floor slab	\$79 25	
Bidet —The "Duval" all-porcelain flushing-rim bidet with "Regula" mixing valve, compression valves to flushing-rim and bidet, "Unique" waste and imperial porcelain floor slab	\$104 00	
Furnishings —Two 24" cellu-enamel towel rods, 1" diameter, \$8.50. Cellu-enamel hand rail, 1½" diameter, 24" long, \$5.90. Plate glass shelf, 27" x 5", with glass towel rod 18" long, and brackets, \$8.75. Plate glass shelf, 42" x 5", with brackets, \$10.75. China soap dish with holder for lavatory, \$3.20. China soap dish with holder for bath, \$2.10. Sponge holder, \$5.50. Towel basket, \$16.00. Cellu-enamel paper cabinet, \$12.00. Cellu-enamel bathroom chair, \$25.00; same, white maple, \$6.25. Colonial medicine cabinet, white enameled wood frame with leaded glass door and two adjustable plate glass shelves, \$80.00. (For other medicine cabinets, see page 65.) China tooth brush vase, \$0.45. Discount on furnishings, ten per cent.		
Tiling —Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.		
Brass Work —All brass work is nickel-plated.		

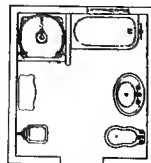

Plate 1004-A, Bathroom "Italian"

TO the architect this interior is most interesting and suggestive—it solves the problem, by the tile partition, of obtaining a recess bath in conjunction with a most desirable arrangement of the needle bath. The tile partition forms one side of the recess and, likewise, one side of the enclosure for the needle bath. The "La Salle" bath may be substituted for the "Regent"—see plan below.

MINIMUM SIZE, 8' x 9'
Plate 1005-A

Tiling—The design is pure Italian renaissance, delicately tinted in four colors, with $\frac{3}{4}$ " border lines in gold; or, if preferred, it may be white and gold, or plain white throughout. The medicine cabinet is set in the tile.

MINIMUM SIZE, 8' x 9' 3"
Plate 1006-A

Plate 1004-A, Bathroom "Italian"

	Class A	Class B
Bath —The "Regent," imperial porcelain, finished outside white with embossed bead touched in gold, supply fittings and "Simplex" waste with china handle, 5' x 2' 8"	\$241 25	\$180 50
Same, 5' 6" x 2' 8"	273 25	195 00
Needle and Shower —The "Regent" needle and shower bath with white duck curtain, curtain rod and hooks, soap dish, imperial porcelain receptor with strainer and coupling. (Receptors are Classes A and B)	279 75	241 75
Lavatory —The "Victorian," imperial porcelain, with imperial porcelain pedestal, compression "Primus" supply and waste (china handle and name plates) and adjustable trap to wall, 32" x 24"	96 50	75 50
Same, 37" x 27"	126 00	99 25
Mirror —Beveled plate glass with 2 $\frac{3}{8}$ " polished wood frame finished in white enamel, 36" x 27"		\$29 50
Water Closet —The "Renaissance" with cellul-enamel seat and cover, No. 33 design "M" white enamel painted cistern, No. 1 brackets, flush pipe, No. 3 guide, rod and links with cut glass pull, the sanitary-perfect screw connection and imperial porcelain floor slab		\$111 00
Bidet —The "Duval" all-porcelain flushing-rim bidet with "Regula" mixing valve, compression valves to flushing-rim and bidet, with "Unique" waste and imperial porcelain floor slab		\$104 00
Toilet Table —Imperial porcelain, with brass frame	45 50	40 00
Mirror —Beveled plate glass with 1 $\frac{3}{8}$ " white enameled wood frame, 54" x 30"		\$40 00
Furnishings —Hanging basket for soiled towels, \$14.50. Recessed paper holder, \$5.60. Cellu-enamel towel rod, 1" diameter, 24" long, with standards, \$4.25; same, 30", \$4.75. Cellu-enamel hand rail, 1 $\frac{1}{2}$ " diameter, 24" long, with standards, \$5.90. Sponge holder, \$5.50. Bath brush holder, \$4.20. Two china soap dishes with holders, \$4.20. Plate glass shelf, 27" x 5", with glass towel rod 18" long, brackets and guard rail, \$10.50. Recessed medicine cabinet with white enameled wood frame, 24" x 18" x 4", leaded glass door and two adjustable plate glass shelves, \$110.00. (For other medicine cabinets, see page 65.) Discount on furnishings, ten per cent.		
Tiling —Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.		
Brass Work —All brass work is nickel-plated.		

Plate 1007 1/2-A, Bathroom "Kenmore"

THIS is an excellent arrangement for a bathroom of moderate size and price. The "Windsor" lavatory while requiring little space has an extra large basin.

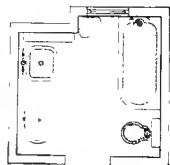

The alternate plan below indicates a "Reina" bath, which has the fittings through the end wall, and "Nouveau" lavatory (see page 26).

MINIMUM SIZE, 7' 6" X 7'

Plate 1008-A

Tiling — The decoration is a colonial garland and is furnished in white or various tints. The floor tile is moresque and may be glazed or unglazed.

MINIMUM SIZE, 7' X 7'

Plate 1009 1/2-A

Plate 1007½-A, Bathroom "Kenmore"

	Class A	Class B
Bath —The "La Salle," imperial porcelain, glazed outside white, with "Eton" supply and waste fittings, 5' x 2' 6"	\$170 00	\$136 25
Same, 5' 6" x 2' 6"	181 25	147 50
Same, 6' x 2' 6"	232 50	170 00

If finished outside white with embossed bead touched in gold, extra, \$3.00.

Shower—Tubular shower with combination shower valve, curtain rod with white duck curtain and chain and hook . . . \$52 00

Lavatory —The "Windsor," imperial porcelain, with imperial porcelain legs, wall supports, No. 2 "Primus" supply and waste, with china handles and adjustable trap to wall, 29" x 26"	69 75	58 25
---	-------	-------

Mirror—Beveled plate glass, with 2¾" white enameled wood frame, 42" x 30" \$38 00

Foot-Bath —The "Kenmore," imperial porcelain, on base, glazed outside white, "Eton" supply and waste fittings with china handles . . .	86 00	71 00
---	-------	-------

If finished outside white with embossed bead touched in gold, deduct \$2.00.

Water Closet—The "Prompto" with cellu-enamel seat and cover, cellu-enamel No. 63 low-down cistern, the sanitary-perfect screw connection, and imperial porcelain floor slab . . . \$79 15

Same, with quartered oak seat, cover and cistern . . . \$55 65

Seat —Imperial porcelain corner bathroom seat with imperial porcelain standard and wall supports	24 25	20 00
---	-------	-------

Furnishings—Plate glass shelf, 36" x 5", with glass towel rod 24" long, brackets and guard rail, \$13.50. Plate glass shelf, 30" x 5", with brackets, \$7.75. Sponge holder, \$5.50. China soap dish with holder, \$2.10. Cut glass tumbler with holder, \$2.40. China tooth brush vase with holder, \$2.10. Oval adjustable plate glass shaving mirror, 8" x 10", with frame, back and brackets, \$8.75. Paper holder, 8½" x 5¾", \$3.35. White enameled wood double medicine cabinet, with plate glass mirrors and plate glass shelves, \$37.50. (For other medicine cabinets, see page 65.) Plain white china shaving mug, \$0.60. Cellu-enamel hand rail, \$5.90. Discount on furnishings, ten per cent.

Tiling—Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.

Brass Work—All brass work is nickel-plated.

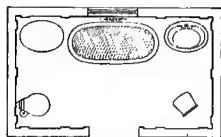

Plate 1010-A, Bathroom "Renaissance"

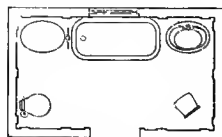

SO far as the classical may be applied to a bathroom it obtains in this interior, both in regard to the fixtures and the tiling. The bath, lavatory and toilet table are of imperial porcelain and harmonize in design and outline, being oval and standing free from the wall. The alternate plan below indicates a "Grantham" bath which is set into the back wall.

Tiling—One of the features of this classical design is the pilasters

which divide the room into panels. The mirrors for the lavatory and dressing table are set in the tile wall, the tint of which is a delicate white with a dull ivory finish.

MINIMUM SIZE, 7' X 12'
Plate 1011-A

MINIMUM SIZE, 7' X 12'
Plate 1012-A

Plate 1010-A, Bathroom "Renaissance"

	Class A	Class B
Bath —The "Victorian," imperial porcelain, finished outside white with embossed bead touched in gold, "Eton" supply and waste fittings, with china handles, 5' 8" x 2' 9"	\$265 50	\$207 75
Lavatory —The "Victorian," imperial porcelain, with imperial porcelain pedestal, No. 2 "Primus" supply and waste with china handles, and adjustable trap to wall, 32" x 24"	95 75	74 75
Same, 37" x 27"	125 25	98 50
Water Closet —The "Langham" with "Presto" flush valve, adjustable shut-off valve, cellul-enamel seat and cover, the sanitary-perfect screw connection and imperial porcelain floor slab	\$79 25	
Toilet Table —Imperial porcelain oval toilet table with imperial porcelain pedestal	52 00	37 00

Furnishings—Two cellul-enamel towel rods 18" long, 1" diameter, \$7.50. Two imperial porcelain toilet shelves, 27" x 5", with brackets, \$18.20. Two china soap dishes with holders, \$4.20. Two small sponge holders, \$6.50. Sponge holder, \$5.50. Comb and brush holder, \$6.00. Nail brush holder, \$2.50. Two tumbler holders with cut glass tumblers, \$4.80. Two holders with china tooth brush vases, \$4 20. Hat and coat hook, \$2.05. Holder for bath brush, \$4.20. Cellu-enamel bathroom chair, \$25.00. Cellu-enamel paper drawer and cabinet, \$20.00. Two colonial medicine cabinets, white enameled wood frame, with leaded glass door and eight adjustable plate glass shelves, \$160.00. (For other medicine cabinets, see page 65.) Prices of mirrors with tile frames on application. Discount on furnishings, ten per cent.

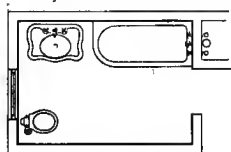

Tiling—Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.

Brass Work—All brass work is nickel-plated.

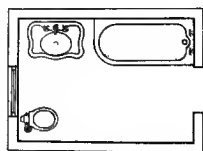

Plate 1013-A, Bathroom "Plaza"

THIS is a replica of the 600 bathrooms in the "Plaza," the latest addition to the magnificent hotels of New York City, the plumbing fixtures of which are of our manufacture. As shown by perspective and plan the bath fittings are in a shaft specially provided for the purpose. In residences or hotels where there is no pipe shaft, the "Reina" bath (see plan below) may be substituted for the "Plaza."

MINIMUM SIZE, 6' x 8'
Plate 1014-A

Tiling — The bathrooms in the Plaza hotel are all tiled as shown by the illustration above, the color of the panel tile being either green, drab, light-brown or dark-brown.

MINIMUM SIZE, 6' x 8'
Plate 1015-A

Plate 1013-A, Bathroom "Plaza"

	Class A	Class B
Bath—The "Plaza," imperial porcelain, finished outside white, with "Plaza" supply and waste fittings and concealed waste and bell supply, china handles and escutcheons, 5' x 2' 7"	\$228 25	\$170 25
Same, 5' 6" x 2' 7"	261 25	200 25

Lavatory—The "Tremont-Rococo," imperial porcelain, with imperial porcelain legs, wall supports, compression "Primus" supply and waste with four-arm china handles and adjustable trap to wall, 30" x 24"	73 25	61 50
Same, 33" x 24"	78 75	66 25
Same, 36" x 24"	87 50	74 25

Water Closet—The "Langham" with "Presto" flush valve, adjustable shut-off valve, cellu-enamel seat and cover, the sanitary-perfect screw connection and imperial porcelain floor slab . . . \$79 25

Furnishings—Cellu-enamel towel rod, 1" diameter, 24" long, with standards, \$4.25. Cellu-enamel hand rail, 1½" diameter, 24" long, \$5.90. Plate glass toilet shelf, 33" x 5", with brackets, \$8.00. Basket for soiled towels, \$16.00. Sponge holder, \$5.50. Two china soap dishes with holders, \$4.20. Recessed paper holder for sheets, 6¾" x 4¼" x 2" deep, \$11.00. Recessed medicine cabinet with white enameled wood frame, porcelain-enameled iron receiver, plate glass mirror front and two adjustable plate glass shelves, Size 2, (21¼" x 15¾" x 5" deep), \$45.00. (For other medicine cabinets, see page 65.) China tooth brush vase, \$0.45. Cut glass tumbler, \$0.75. Prices of mirrors with tile frames furnished on application. Discount on furnishings, ten per cent.

Tiling—Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.

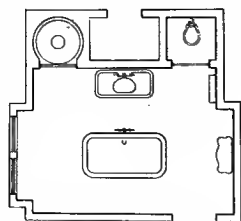

Brass Work—All brass work is nickel-plated.

Plate 1016-A, Bathroom "Marsden"

IT is now recognized by architects and owners, in planning a residence or mansion, that liberal space should be reserved for bathrooms. By so doing, they permit the installation of extra large lavatories, with ample room on slab, such as the "Marsden" and others, and, when desired, the extra wide "Alhambra" bath shown above. The needle bath and water closet are set in recesses.

Tiling—The walls are white glazed 6" tiles with tinted ribbon tile set near top and bottom. The door and window casings are modeled in tile.

MINIMUM SIZE, 13' 6" X 12'

Plate 1017-A

Plate 1016-A, Bathroom "Marsden"

	Class A	Class B
Bath —The "Alhambra" imperial porcelain, finished outside white with embossed bead touched in gold, "Eton" supply and waste fittings, with china handles, 5' x 2' 8"	\$216 50	\$164 50
Same, 5' 6" x 2' 8"	233 75	176 00
Same, 5' 6" x 3' 4"	480 50	341 00
Guard rail and stanchions, as shown, extra, \$92.00.		
Shower —The "Perry" needle and 10½" tubular shower bath, curtain rod and hooks, water-proofed white duck curtain, soap dish, imperial porcelain receptor with strainer and coupling. (Receptors are Classes A and B)	336 75	302 25
Lavatory —The "Marsden," imperial porcelain, with imperial porcelain legs, wall supports, No. 3 "Primus" supply and waste with china handles, and adjustable trap to wall, 4' 2" x 2' 1"	131 00	102 00
Same, 3' 7" x 2' 1"	116 25	87 25
Same, 3' x 2' 1"	85 00	71 75
Same, 2' 9" x 2' 1"	76 25	63 75
Same, 2' 6" x 2'	70 75	59 00
Mirrors —Two beveled plate glass mirrors with 2¾" white enameled wood frames, 4' x 2' 6" \$72 00		
Water Closet —The "Silentis" with cellu-enamel seat and cover, No. 33 design "L" cellu-enamel cistern, quadrant brackets, flush pipe, No. 2 guide, rod and links with china pull, the sanitary-perfect screw connection, imperial porcelain floor slab, curtain rod and hooks with water-proofed white duck curtain \$126 75		
Toilet Table —Imperial porcelain, with brass frame	45 50	40 00
Furnishings —Two 30" crystal glass towel rods, 1" diameter, \$7.50. Plate glass toilet shelf, 48" x 5", with brackets, \$11.25. Two adjustable plate glass shaving mirrors with oval frame, 10" x 13", back and brackets, \$20.00. Cellu-enamel bathroom chair, \$25.00; same, white maple, \$6.25. China soap dish with holder, \$3.20. Colonial medicine cabinet, white enameled wood frame with leaded glass door and two adjustable plate glass shelves, \$80.00. (For other medicine cabinets, see page 65.) Recessed paper holder, \$5.60. China tooth brush vase, \$0.45. Cut glass tumbler, \$0.75. Discount on furnishings, ten per cent.		
Tiling —Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.		
Brass Work —All brass work is nickel-plated.		

Plate 1018½-A, Bathroom "Colonial"

AMONG the many improvements that we have devised, few have met with such constant and continuous appreciation as the "La Salle" imperial porcelain bath, the back, end and base being built into the tile. The "Nouveau" lavatory with its simple effective design is the index to the character of this bathroom, both as to the fixtures and the tiling.

Tiling—The tile frieze is an elongated leaf pattern in high relief. It is usually preferred in plain white or white touched with green.

MINIMUM SIZE, 7' x 9'

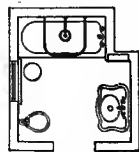

Plate 1020-A, Bathroom "Norwood"

EVERY guest chamber in a well-appointed residence has a bathroom attached, conforming in this respect to the high-class hotels in New York and other cities. Plate 1020-A, which may be seen at our Fifth Avenue showrooms, demonstrates the feasibility of having a fine, thoroughly equipped bathroom, even though the available space be small.

Tiling—The walls are of white glazed tile with two tinted $\frac{1}{2}$ " ribbon tiles set near top and 1" near bottom. The floor is 1" glazed or unglazed vitreous tile.

The "Regent" bath is bedded into the back and side tiled walls and floor, thus making it an integral part of the room.

MINIMUM SIZE, 6' x 7'

Brass Work — All brass work is nickel-plated.

Plate 1022-A, Bathroom "Art Nouveau"

THE application of this style of decoration to the modern bathroom is most effective. Plate 1022-A illustrates the freedom of the "Art Nouveau" without being extreme in design or color. This interior may be seen complete at our Fifth Avenue showrooms, the tile design being in a delicate gray; the floor of corresponding design is in stone mosaic.

MINIMUM SIZE,
7' 6" X 8' 6"

Brass Work —All brass work is nickel-plated.		

Plate 1024-A, Bathroom "Granada"

WHILE the "Granada" imperial porcelain bath is also made in the smaller sizes, the illustration shows the extra-large "Granada" (6' x 3' 4"), which is a marvel of the potter's art. In a room where space is not a consideration, it is a luxury worth more than the extra cost. The "Knickerbocker" bath (see page 40) may be substituted for the "Granada."

Tiling—The frieze is of a delicate empire-colonial design in white and gold or tinted. The window casing and the frame of the door to the separate toilet room are of moulded tile.

Tiling —Prices on application. Diagram of room should accompany inquiry.		
Brass Work —All brass work is nickel-plated.		

Plate 1030-A, Bathroom "Victorian "

MODERN plumbing as applied to a bathroom does not consist merely of several appliances that bear no relation one to the other in construction, design or decoration. On the contrary, each element, whether bath, lavatory, water closet or tiling, should be so selected that the bathroom as a whole produces an artistic effect. Plate 1030-A (also the other bathrooms in this series) demonstrates what we have accomplished in this direction, an important factor being our imperial porcelain.

Tiling—The walls are 6" white glazed tile with cap moulding and $\frac{1}{2}$ " tinted ribbon tile forming a light border.

MINIMUM SIZE, 7' X 11' 6"
Plate 1031-A

Plate 1030-A, Bathroom "Victorian"

Brass Work —All brass work is nickel-plated.		

Plate 1032-A, Bathroom "Knickerbocker"

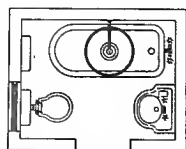

THIS is a moderate-cost bathroom with porcelain bath, lavatory and water closet. The fixtures as shown by plans require a minimum space, and can be adapted to any small bathroom. The "Knickerbocker" is a type of bath on base which is invariably preferred to bath on legs.

Tiling—Is very simple in character, about 48" high, white tile with cap moulding, a $\frac{1}{2}$ " tinted ribbon tile beneath, and a similar $\frac{3}{4}$ " or 1" ribbon tile above the base. Square 2" glazed or unglazed vitreous tile are shown on the floor, a row of darker 2" tile forming a border.

MINIMUM, 5' 6" X 7' 6"

Sponge holder, \$5.50. Paper holder, \$3.65. White maple bathroom chair, \$6.25. Double medicine cabinet, white enamel finish, with plate glass mirrors and plate glass shelves, \$37.70. (For other medicine cabinets, see page 65.) Discount on furnishings, ten per cent.

Tiling—Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.

Brass Work—All brass work is nickel-plated.

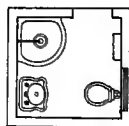

Plate 1034-A, Bathroom "La Salle"

A Shower is preferred by some to a regular plunge bath, and in some of the modern bathrooms in hotels and residences the arrangement is similar to Plate 1034-A, with three fixtures, namely, shower or needle bath, lavatory and closet.

The receptor may be imperial porcelain or enameled iron.

Tiling—The walls are of white tile, about 48" in height, with cap moulding and 9" sanitary base. Back of the shower, the tile should be carried up to a height of 8' with a width of 3' on either wall. The floor is of 2" x 2" vitreous tile.

MINIMUM SIZE, 6' X 6'

Tiling—Prices of tiling, set and unset, on application. Diagram of room should accompany inquiry.

Brass Work—All brass work is nickel-plated.

Plate 1036½-A, Bathroom "Universo"

A SOLID imperial porcelain bath is the best and most desirable in every respect. The "Universo" costs and weighs about the same as a high-grade enameled iron bath, while the expense of handling and installation is no greater. As we manufacture all our plumbing appliances (having our own potteries, iron and brass foundries, enameling works, cabinet shops and nickel-plating plant), it is not necessary for us to commend one to the exclusion of the other. However, in view of the now exceedingly moderate price of the imperial porcelain, we feel that it should be given preference wherever possible.

MINIMUM SIZE, 4' 8" X 9' 9"

Plate 1037-A

Tiling—May be as any of the following illustrations, and 42" or 48" high.

Mirror—Plate glass with $\frac{3}{4}$ " white enameled wood frame, 42" x 30", \$39.50; same, beveled mirror, \$42.00; same, 36" x 27", \$34.00; same, beveled mirror, \$36.00.

Furnishings—Plate glass shelf, 3' 6" x 5", with n. p. brackets, \$10.75. China tooth brush vase, \$0.95. China mug, \$0.70. China soap dish with cover, \$1.60. Cut glass tumbler with n. p. holder, each, \$2.40. N. P. comb and brush holder, \$6.00. For prices of other furnishings, see pages 58 to 65.

We recommend large lavatories; they should be installed whenever the size of the bathroom will permit. The advantages of large lavatories are obvious: they give abundant room for washing and for toilet articles.

Imperial porcelain lavatories have supplanted marble both for private and public work. There is no joint between the slab and basin; the ware is non-absorbent and unsainable, and the smooth china-white glaze appeals to those who desire a clean and sanitary lavatory.

Plate 4000-A

Plate 4000-A. The "Granville" imperial porcelain lavatory with imperial porcelain legs, n. p. brass wall supports, No. 3 "Primus" supplies and wastes with china handles and "Circle" traps to wall

Class A Class B Class C

\$226 00 \$184 00 \$144 00

If with low-down compression faucets (china name plates) and "Unique" wastes (china handles), deduct \$20.00. If with shampoo faucet as Plate 4005-A, add \$9.50. N. P. supply pipes ($\frac{3}{8}$ " I. P. size) to floor, as shown, per pair, extra, \$4.40; same, with globe valves, per pair, extra, \$6.50.

Mirror—Plate glass with $3\frac{1}{4}$ " white enameled wood frame, 4' 10" x 2' 6", \$49.25; same, beveled mirror, \$53.00.

Furnishings—China soap dish with n. p. holder, \$3.20. Plate glass shelf, 54" x 5", with n. p. brackets, \$14.00. China tooth brush vase, \$0.80. China mug, \$0.60. Cut glass tumbler, \$0.75. For prices of other furnishings, see pages 58 to 65.

Dimensions of Lavatory—Length, 5' 1"; width, 2' 2"; basins, 19 $\frac{1}{2}$ " x 14 $\frac{1}{2}$ ".

In modern residences the tendency is towards larger bathrooms. This is most desirable in every way. Among other advantages, it permits the installation of large and commodious lavatories such as the "Granville," and the "Clinton" illustrated on page 14.

Plate 4005-A

Plate 7051-A

Plate 7051-A. The "Barrington" imperial porcelain kitchen sink, integral back and drain board, legs, "Belknop" No. 4 n. p. $\frac{3}{4}$ " compression faucet (china name plates), 2" waste strainer and coupling, and wood mats for sink and drain board. Class A Class B
 \$124 55 \$102 80

N. P. 2" trap with pipe to floor and vent, extra, \$10.25. Tucker grease trap, Size 1, painted cast-iron (see page 70), extra, \$32.75. N. P. $\frac{3}{4}$ " supply pipes with offsets and unions, extra, \$8.50.

Length and width outside, 5' 1" x 2' 2"; sink inside, 32" x 20" x 6 $\frac{1}{2}$ " deep; drain board, 2'; height of back, 9". "Belknop" faucet, 10 $\frac{1}{2}$ " centers.

Our imperial porcelain sinks are in appearance and from a sanitary and practical standpoint superior to all others. They are glazed white inside and outside. Strength and durability are assured by the substantial thickness of 2". They are made in one piece, without the joints so objectionable in a soapstone or slate sink. In the manufacture of large pieces of porcelain ware, some when taken out of the kiln are found to have slight marks or lines which do not detract from their general appearance or durability. These are termed Class B, and are recommended where cost is a consideration.

The "Barrington" sink is a most complete and desirable fixture. The back has space behind for the supply pipes; it is ground so as to fit against the wall. Made only with drain board at left as shown.

Plate 7086-A. The "Ashland" imperial porcelain vegetable wash sink with integral back, legs, "Belknop" No. 3 n. p. $\frac{3}{8}$ " faucet and "Simplex" standing waste and overflow. Class A Class B
 \$69 25 \$53 75

N. P. 1 $\frac{1}{2}$ " adjustable trap to wall, extra, \$4.20. Ash cutting and drain board, 18" long, with n. p. hinges, shown on page 68, extra, \$13.75.

Length and width outside, 30" x 22"; sink inside, 26" x 16 $\frac{1}{2}$ " x 9"; height of back, 9".

The vegetable wash sink, for thoroughly cleansing and preparing vegetables, is a necessary adjunct to the modern well-equipped kitchen.

Plate 7086-A

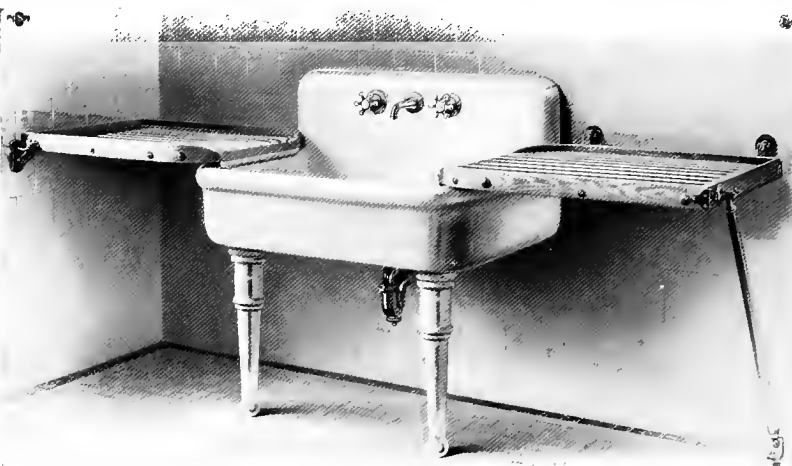

Plate 7054-A

Plate 7054-A. The "Rocona" kitchen sink, with integral back, legs, "Belknap" No. 4 n. p. $\frac{3}{4}$ " compression faucet (china name plates), 2" waste strainer and coupling, and wood mat, 24" x 22" x 7"

Brass bent thimbles for faucet, extra, \$1.10. N. P. 2" adjustable trap to wall, extra, \$6.50. Ash drain board for corner, 30" long, with n. p. end hinges as shown, extra, \$14.50. Ash drain board for end, 30" long, with n. p. back hinges and telescopic leg as shown, extra, \$20.25. If with bronzed or painted iron legs, instead of imperial porcelain, deduct \$3.00; instead of colonial, deduct \$1.50.

Dimensions of sinks are outside, except depth, which is inside; back, 9" high.

Plate 7340-A. Tucker grease trap. Size 1. Height, 17"; diameter, 12 $\frac{3}{4}$ "; painted cast-iron	\$32 75
Same, enameled inside	42 00
Size 2. Height, 18 $\frac{1}{2}$ "; diameter, 17 $\frac{3}{4}$ "; painted cast-iron	45 50
Same, enameled inside	59 50
Size 3. Height, 21 $\frac{3}{4}$ "; diameter, 23"; painted cast-iron	69 50
Same, enameled inside	78 00
Size 4. Height, 17 $\frac{3}{4}$ "; diameter, 11 $\frac{1}{2}$ "; nickel-plated	83 75

Size 1 and Size 4 are adapted for residences; Size 2 for large private residences, etc.; Size 3 for hotels, restaurants, etc.

Dimensions given above are outside.

The Tucker grease trap is composed of an inner chamber into which the waste water and grease passes, and an outer chamber through which the cold water supply for the house flows. The circulation of cold water around the outside, chills or congeals the grease entering into the inner chamber; the grease being lighter than water, gathers at the top and is thus prevented from passing through the outlet. The hollow central partition is an important feature in that it increases the area of cooling surface and also deflects the waste water upward, consequently bringing it in contact with a greater amount of cooling surface before it passes through the outlet.

The Tucker trap is unquestionably the best grease trap made.

Length, Size 1, 24"; Size 2, 30"; width from front to back, 26"; depth inside, 15".

Porcelain ware, with its substantial thickness, fine glaze and beautiful appearance, is preeminently the ideal material for sanitary appliances, such as wash tubs, etc. The prices are such that the tubs can be used in all fine and moderate-priced dwellings.

The colonial wash tubs are excellent where cost is a consideration. They are light buff in color, glazed inside and outside, easily kept clean, practically everlasting, low in price and infinitely superior to enameled cast-iron.

The imperial and colonial tubs are absolutely impervious to moisture or germs. No porous material should be used for wash tubs.

Water Closets

UNDER any usual conditions of water pressure, cistern closets as shown by Plates 5026-A and 5406-A may be used.

Valve closets as shown by Plates 5506-A and 5521-A may be supplied direct from the main or from a house tank; in either case, the pressure and volume of supply must be ample.

Any of the closets illustrated can be furnished with "Boston" vent, as shown in Plate 5521-A.

Illustrated catalogue giving full description of all of these closets furnished on application.

The Sanitary-perfect Screw Connection

(Patented in the United States and Great Britain.)

IN these days of almost perfection in sanitary science, the connection of the water closet to the soil pipe is the one weak spot in an otherwise almost perfect system of house plumbing, the one connection that cannot be relied upon under all conditions. That absolute security is assured, and the question of careless or unskillful work disposed of by the sanitary-perfect screw connection, must be admitted by all; moreover, those who have seen and used this device do not hesitate to say that it solves the question of water closet connection, and state, furthermore, that knowing such device to exist they would feel in duty bound to recommend the same to their clients as the only perfect connection which they could guarantee under all conditions.

NOTE.—All ordinary connections require bolts through the base of the water closet. The sanitary-perfect is a screw connection, hence it is absolutely and permanently reliable and the unsightly bolts are dispensed with.

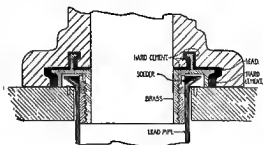

Plate 5001-A

The section shows how the threaded brass screw connection is secured into the base of the closet. The joint thus formed makes the brass connection equivalent to an integral part of the closet which is impossible to loosen or disturb in the slightest degree.

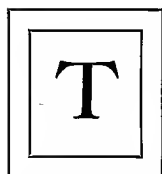

Plate 5002-A

Plate 5002-A shows the "Silentis" closet with the sanitary-perfect screw connection and the threaded floor coupling which is connected to soil pipe.

EIGHTY YEARS OF SUPREMACY

1828-1908

THE name of "Mott" has been for nearly a century a synonym for the highest grade plumbing goods at a moderate price. This mere statement carries with it full assurance as to the quality, durability and uniform excellence of our products. At all expositions where our goods have been exhibited, we have received the highest awards.

It is suggested that parties selecting or specifying Mott's Plumbing Fixtures should examine them before they are installed, so as to be sure that they are of our manufacture. All of our fixtures bear the name, "The J. L. Mott Iron Works"; so that their identity can readily be established.

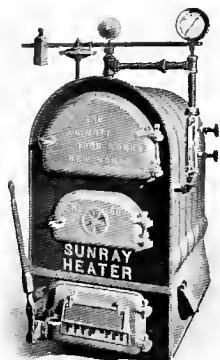

Stock Room of Imperial Porcelain Baths

WHILE
"Mott's
Plumbing" is a
household word
because of its
superlative
quality, never-
theless it repre-

sents only one branch of our manu-
factures, which include:

Ornamental work in iron, brass and other metals.
Fountains, vases, drinking fountains, railings, etc.
Electric and gas light posts, electroliers, etc.
Stable and cow barn fixtures of a high grade.
Tiling of suitable designs, for bathrooms, etc.
Steam boilers, water heaters and radiators.
Ranges for coal and gas, hot air furnaces.
Exhibits representing all departments

may be seen at our
showrooms, Fifth
Avenue and Seven-
teenth Street, New
York. To those
who may not be
able to conven-
iently visit our
showrooms, cata-
logues will be
mailed on appli-
cation.
